To the Reverend and Learned
Dr. GILBERT IRONSTDE
Warden of Wadham Coll. and Vice-Chan-
cellor of the UNIVERSITY of OXFORD.

Reverend SIR,

AS the nature and quality of your publick Office may sufficiently justify the prefixing your Name to this Catalogue, so the Courage and Integrity manifested in your administration of the same deservedly place you in the Head of so many brave men, divers of whom have already prov'd Confessors, and with many more were prepar'd to become Martyrs, for uncorrupt Christianity, and the best constituted Church in the World. The truth is they are only such Persons as You that are endow'd with Vertues and Abilities proportionate to the Exigencies of the Age; for every common Mariner can steer the Vessel with a fair and gentle Gale, but when she is forc'd to drive before the Wind, and seems to be inevitably carry'd upon Rocks or Shallows; it is in such Circumstances that discovery is made of a skilfull Pilot. The University indeed was never better furnished with Persons excellently qualify'd for so great a Charge, but yet the hand of Providence seems very visible in it's designing you for the last and present year; and you little imagin'd how you cooperated with Heaven, when you so industriously declin'd that Office

The Epistle Dedicatory.

for which you were reserv'd against Times of the greatest Difficulty and Distresse. I am sure it cannot be deny'd that your former Aversion to, and late and present management of that Office, give you a just title to the Character we have from *Paterculus* of that excellent Roman Governour *Lucius Piso*; *De quo viro* (sayes he) *hoc omnibus sentiendum atq; prædicandum est, esse mores ejus rigore ac lenitate mixtissimos, & vix quenquam reperiri posse qui aut otium validius diligat, aut facilius sufficiat negotio; & magis quæ agenda sunt curet, sine ulla ostentatione agendi.* I shall only take the boldness to add, that by your excellent conduct you seem to have precluded all future designations to that Office, and are now oblig'd to continue perpetual Vice-Chancellor; for no man will adventure to succeed Him, whose unparallel'd Example it will be so extreme difficult to Approach, and to Surpass utterly impossible.

I am,

Reverend SIR,

Your much Obliged

and most humble Servant.

RICHARD PEERS.

The PREFACE.

Among the several reasons that might be produc'd for the Publication of this Catalogue I shall mention but one, and that is of the nature of such as may be given for Books of Heraldry, viz. to make Known the Qualification of particular Persons upon account of Academical Degrees, and (what is consequent thereunto) their proper Station in point of precedence: for (as we are told by Logan in his Honour Civil Chap. 1.) next to Knights Batchelors are Colonels, Serjeants at Law, and Doctors. All Batchelors of Divinity, Law, and Physick, all Masters of Arts, Barresters in the Inns of Court &c. may equall (and some of them precede) any Gentleman that hath none of these Qualifications. Agreeable whereunto is what we find in the Present State of England; viz. That all Deans, Arch-Deacons, Chancellors, Prebends, Doctors of Divinity, Law, and Physick, Heads of Houses in the Universities, usually take place next to Knights, and before ordinary Esquires and Gentlemen. All Batchelors of Divinity, Law, and Physick, and Doctors of Arts, commonly called Masters of Arts, all Barresters in the Inns of Court &c. may equall, if not precede, Gentlemen that have none of these Qualifications.

As for the Station of Graduates among themselves according to our Statutes, that of Batchelors of Divinity, Law, and Physick in their respective Faculties, depends upon their Presentation; and so likewise does that of Doctors, except Grand-Compounders, who have precedence of all others

The Preface.

others of the same year and Faculty. All Doctors of Divinity take place of all Doctors of Law and Physick; but those of Law and Physick take place of each other according to the time and order of their Admission, and Inception in the Act. The true Station of Masters of Arts among themselves is according as they are ranked by the Proctors at Act; whose power in that matter is nevertheless limited by certain restrictions (to be found in our publick Statutes) one of which is that Grand-Compounders be put first of the year. Batchelors of Law in the Course of Preaching come after Masters of Arts that are two years their juniors; reckoning from the Admission of the former and Inception of the latter.

An Asterisk thus * denotes a Grand-Compounder for that Degree to which it is affixed; and he is one who has Forty Pounds per annum, or upwards, in temporall Estate or Preferment; which must be held for terme of life at least: and if it be spiritual preferment it is to be rated, not according to the reall Income, but according to its valuation in the Kings Booke; but no Place or Preferment in the University makes a man a Grand-Compounder; and every one before his admission to any Degree is obliged by Vertue of his Oath taken to the University to discover whether or no he be possessed of such Estate or Preferment. Upon account of the extraordinary Fees a Grand-Compounder payes he has special honour done him by the University, with several Priviledges which he claims, one of which (as we have already observed concerning Doctors and Masters) is to precede all those that take the same degree that year. It must be acknowledged that all Grand-Compounders have not here that mark of distinction put to the degrees for which they Compounded, and that therefore no notice ought to have been taken of any, since no certainty could be
had

The Preface.

had of all of them: but some progress had been made in printing of this Catalogue before it was discovered that such an accurate account, especially for the two or three first years after the Restauration, was by no means to be procured. There is an inferior sort of Compounders, commonly called petty Compounders; and these are such as have five shillings per annum, or upwards, according to the Rules and Conditions above-mentioned.

It was intended at first to distinguish such as were Created from those that Proceeded regularly; but the unhappy circumstances the University was brought into by the power and insolence of her Roman Intruders (who were ready to catch at every shadow of Reason for invading our Degrees as well as our Fellowships) made it seem more advisable to put all persons down in one and the same manner, and without any such note of distinction.

Some few things more are to be remarked here relating to this present publication. viz.

1. That few Cambridge men are to be found in this Catalogue, except some persons of Quality, and such others as resided with us for some time; because by their Incorporation here they acquire no new Right or Privilege in respect of their Qualifications and Station in the Kingdom: but it being otherwise with the members of all foreign Universities, care has been taken that none of them be omitted.

2. Altho Jo. does generally denote John, yet because it may be intended for Joseph, Jonas, Jonathan &c. the like being also observable of some other Christian-names: for prevention therefore of mistakes no more is put down of such names than we find written by the Proceeder himself. And for the same reason since Jac. Jacob. and even Jacobus may signify Jacob as well as James; where we have

The Preface.

no certainty of the English name, it was judged more safe to make use of the Latin.

3. It is observable that not only the nearest Relations, but sometimes the same Persons do write their names differently for different Degrees, therefore whatever error or uncertainty may arise upon such account, it must not be imputed to the Publisher hereof: and the same may be said of any mistake that relates to the spelling of such Surnames as depend upon other authority than that of the Subscription Books, where we have them under the hands of the Proceeders themselves.

4. Where severall men bear the same Surname the Catalogue runs double, viz. both upon that and the Christian-name; and where both names are exactly the same such persons are placed in the order in which they Proceeded.

5. M. A. Signifies Master of Arts, D. D. Doctor of Divinity, B. D. Batchelor of Divinity, D. C. L. Doctor of Civil Law, (our Statutes and present Constitution having only degrees in Civil Law, altho some men write themselves D. L. L. that is Doctors of both Laws viz. Canon and Civil) B. C. L. Batchelor of Civil Law D. M. Doctor of Medecin, commonly (tho improperly) called Doctor of Physick, B. M. Batchelor of Medecin or Physick, D. Mus. Doctor of Musick.

6. As for the other Abbreviations which relate to the several Houses, they are so full and intelligible of themselves, that they need no explanation; only it may be observed that Chr. Ch. signifies Christ Church College, generally called simply Christ Church, without the addition of College. And so we find it frequently written, which is not usual as to other Houses, altho in our ordinary Discours the single names Oriel, Exeter, Lincoln, &c. suffice to denote the several Colleges.
